PUBLIC NOTICE

**Groundwater Discharge Permit Applications Submitted to the
Department for Review – Input from Community Members
Sought in Development of Public Involvement Plans
February 9, 2021**

Dear Interested Party,

The New Mexico Environment Department (NMED) Ground Water Quality Bureau (GWQB) hereby provides notice pursuant to 20.6.2.3108 NMAC that the following Groundwater Discharge Permit applications have been submitted to NMED for review. Provided the applicant has met applicable requirements, NMED will propose for approval a Discharge Permit containing limitations, monitoring requirements, and other conditions intended to protect groundwater quality for present and potential future use.

NMED develops a Public Involvement Plan (PIP) for each permitting action to plan to provide public participation opportunities and information that may be needed for the community to participate in a permitting process. NMED maintains facility-specific mailing lists for persons wishing to receive associated notices for a permitting action or to provide input in the development of a PIP. To learn more about a Discharge Permit and the permitting process or to be placed on a facility-specific mailing list, please contact the NMED Permit Contact at the telephone number or email address provided or address correspondence to the GWQB, PO Box 5469, Santa Fe, NM 87502-5469.

Due to the current Public Health Emergency under the Governor's Executive Order No. 2020-004, NMED Permit Contacts are teleworking from home and email is the best way to reach a Permit Contact. Public comments received by the Department by either email or US Mail are both considered to be written comments. You may also use the telephone number for a Permit Contact, as provided below, to leave a voicemail for the Permit Contact as each Permit Contact is able to check their voicemail remotely.

NMED hopes to protect the health of community members from potential exposure to COVID-19 and continue to involve all communities in agency decisions during the Public Health Emergency. Instead of placing a copy of the PIP for a permitting action in a public location, NMED will make the PIP available to the community by sending the PIP by email or US mail directly to any community member who requests a copy at no cost to the requester. You may request a copy of the PIP utilizing the Bureau contact information in this public notice. Please specify how you would like the document delivered. If you request a copy of a PIP, NMED will send a revised PIP if NMED updates the PIP in the future. If you have internet access, you can view any PIP, when it

becomes available, online at: <https://www.env.nm.gov/gwqb/public-involvement-plans/>. Additional measures to assure public involvement in agency decisions during the Public Health Emergency are currently being developed and NMED welcomes your input on how we can best involve your community in agency decisions. Please see the Community Member Public Involvement Plan Input Form below to provide input to NMED.

If you are a non-English speaker, do not speak English well, or if you have a disability, you may contact the NMED Permit Contact to request assistance, an interpreter, or an auxiliary aid in order to learn more about a Discharge Permit or the permitting process, or to participate in activities associated with the permitting process. To the extent possible, NMED will arrange for requested interpretation services and accommodations or services for persons with disabilities. Telephone conversation assistance is available through Relay New Mexico at no charge for people who are deaf, hard of hearing, or have difficulty speaking on the phone, by calling 1-800-659-1779; TTY users: 1-800-659-8331; Spanish: 1-800-327-1857. Telephone interpretation assistance for persons that are a non-English speaker or do not speak English well is available at no charge when calling NMED.

NMED does not discriminate on the basis of race, color, national origin, disability, age or sex in the administration of its programs or activities, as required by applicable laws and regulations. NMED is responsible for coordination of compliance efforts and receipt of inquiries concerning non-discrimination requirements implemented by 40 C.F.R. Parts 5 and 7, including Title VI of the Civil Rights Act of 1964, as amended; Section 504 of the Rehabilitation Act of 1973; the Age Discrimination Act of 1975, Title IX of the Education Amendments of 1972, and Section 13 of the Federal Water Pollution Control Act Amendments of 1972. If you have any questions about this notice or any of NMED's non-discrimination programs, policies or procedures, you may contact: Kathryn Becker, Non-Discrimination Coordinator, New Mexico Environment Department, 1190 St. Francis Dr., Suite N4050, P.O. Box 5469, Santa Fe, NM 87502, (505) 827-2855, nd.coordinator@state.nm.us. If you believe that you have been discriminated against with respect to a NMED program or activity, you may contact the Non-Discrimination Coordinator identified above or visit our website at <https://www.env.nm.gov/non-employee-discrimination-complaint-page/> to learn how and where to file a complaint of discrimination.

Sincerely,

Lochlin Farrell
Ground Water Quality Bureau

“How can I be of assistance?”

Lochlin is available by telephone during normal business hours at **(505) 660-8061**. Lochlin can help you with questions regarding this public notice or public involvement and can arrange for an interpreter to be on the phone line for the duration of your call at no cost to you.

Enclosure: Community Member Public Involvement Plan Input Form
Groundwater Discharge Permit Applications Submitted for Review

**New Mexico Environment Department
Ground Water Quality Bureau
Community Member Public Involvement Plan Input Form**

Public Notice 1 Published on February 9, 2021

If you would like to provide input to be considered by the Department in the development of a Public Involvement Plan, please fill out this form and send it to the NMED Permit Contact at the email address provided below or send by mail to GWQB, PO Box 5469, Santa Fe, NM 87502-5469. For comments regarding public involvement that are not specific to a particular permit, please send this form to Lochlin Farrell at Lochlin.Farrell@state.nm.us, or mail to Lochlin Farrell, GWQB, PO Box 5469, Santa Fe, NM 87502-5469. This form is available online at <https://www.env.nm.gov/gwqb/public-notice/>. All written responses received by email or US Mail will become public record. If you have any questions or are having any difficulty completing the form, contact Lochlin Farrell at Lochlin.Farrell@state.nm.us or call between the hours of 8:00 a.m. to 5:00 p.m. Monday through Friday at 505-660-8061. Lochlin can arrange for an interpreter to be on the line for the duration of your call at no cost to you.

Your input is regarding Discharge Permit number _____

What circumstances or cultural considerations should NMED be considerate of when planning for public notice or outreach in your community?

Please let us know how the members of your community, including those that do not have internet access, are staying in touch with one another during the Public Health Emergency. NMED would use this input to help assure equitable access to information provided to the community by NMED.

Please use the space below if you would like to nominate a local media outlet or community publication to carry notification when a draft permit is available for public comment or a meeting is planned. NMED will consider additional outreach for a permitting action as resources allow.

Please use the space below if you would like to nominate a local business or community space to have a copy of the public involvement plan available for viewing by your community. The business or community space must be accessible by public transportation, where applicable, and be accessible to persons who have a disability. If NMED determines that it would be safe to place documents in a public place, NMED will contact the business or community space to ask if they would be willing to serve in this capacity.

Please use the space below if you have other comments regarding public involvement of your community in the permitting process. Please remember to be specific about your recommendations and how the NMED can address any concerns. NMED will consider additional outreach for a permitting action as resources allow:

For questions or comments regarding this form, please contact Lochlin Farrell at Lochlin.Farrell@state.nm.us or (505) 660-8061.

Discharge Permit 521	Facility West Mesa Disposal Site	Applicant Charlie Leder, Manager Plant Operations Division 4201 Second Street SW Albuquerque, NM 87105	NMED Permit Contact Andrew Romero Environmental Scientist AndrewC.Romero@state.nm.us Telephone: (505) 660-8624
	Closest City Albuquerque		

Notice: DP-521, West Mesa Disposal Site: Albuquerque Bernalillo County Water Utility Authority proposes to renew the Discharge Permit for the discharge of up to 95,000 gallons per day or up to 60.3 dry metric tons per day of treated municipal sludge and sewer line grit to the West Mesa Disposal Site. Potential contaminants from this type of discharge include nitrogen compounds and metals. The facility is located at 7400 Jim McDowell Rd, Albuquerque, in Section 3, 4, 5, 8, 9, 10, 14, 15, 16, 17, 22, 23, 26, 27, and 34, T11N, R01E, Bernalillo County. Groundwater most likely to be affected is at a depth of approximately 922 feet and had a pre-discharge total dissolved solids concentration of 450 milligrams per liter.

Discharge Permit 1308	Facility Southside Water Reclamation Plant Reuse System	Applicant Charles S. Leder, PE, Manager ABCWUA-Plant Operations Div. PO Box 568 Albuquerque, NM 87103	NMED Permit Contact Sandra Gabaldón Environmental Scientist Sandra.Gabaldon@state.nm.us Telephone: 505-660-8164
	Closest City Albuquerque		

Notice: DP-1308, Southside Water Reclamation Plant Reuse System: Albuquerque Bernalillo County Water Utility Authority (ABCWUA) proposes to renew and modify the Discharge Permit for the discharge of up to 7.5 million gallons per day of domestic wastewater to a treatment and disposal system. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 4201 Second Street SW, Albuquerque, in Sections 07, 18, 19, 21, 22, 27, 28, 30, T9N, R3E, Bernalillo County. Groundwater most likely to be affected is at a depth of approximately 30 feet and had a pre-discharge total dissolved solids concentration of 305 milligrams per liter.

Discharge Permit 1913	Facility Dunn Edwards Paints	Applicant Robert Wendoll, Director of Environmental Affairs 4885 East 52nd Place Los Angeles, CA 90058	NMED Permit Contact Jason Herman Hydrologist – Supervisor Domestic Team Leader Jason.Herman@state.nm.us Telephone: (575) 649-3871
	Closest City Albuquerque		

Notice: DP-1913, Dunn Edwards Paints: Dunn-Edwards Corporation proposes to discharge of up to 1,689 gallons per day of solution for groundwater remediation. Potential contaminants from this type of discharge include total dissolved solids. The facility is located at 215 Rossmoor Rd. SW, in Albuquerque, in Section 7, T09N, R03E, Bernalillo County. Groundwater most likely to be affected is at a depth of approximately 8 feet and had a pre-discharge total dissolved solids concentration of 773 milligrams per liter.

Discharge Permit 163	Facility P7 Dairy, LLC		Applicant Paul Pirtle P7, LLC PO Box 3899 Roswell, NM 88202	NMED Permit Contact Marc Bonem Environmental Scientist Marc.Bonem@state.nm.us Telephone: (505) 660-8376
	Closest City Roswell	County Chaves		

Notice: DP-163: P7, LLC Dairy proposes to renew the Discharge Permit for the discharge of up to 99,999 gallons per day of wastewater from the production area of a dairy facility. Potential contaminants from this type of discharge include nitrogen compounds. The facility and discharge locations are located at 3852 Hobson Rd., approximately 6.5 miles southeast of Roswell, in Sections 31 and 32, T11S, R25E, Chaves County. Groundwater most likely to be affected is at a depth of approximately 26 feet and had a pre-discharge total dissolved solids concentration of 2,800 milligrams per liter.

Discharge Permit 1707	Facility NRA Whittington Center		Applicant David Kelner Executive Director NRA Whittington Center PO Box 700 Raton, NM 87740	NMED Permit Contact Ron Sholdt Geoscientist Ron.Sholdt@state.nm.us Telephone: (505) 660-9662
	Closest City Raton	County Colfax		

Notice: DP-1707, NRA Whittington Center proposes to renew the Discharge Permit for the discharge of up to 55,000 gallons per day of domestic wastewater to a septic tank and leachfield disposal system. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 34025 Hwy 64, approximately 10 miles southwest of Raton, NM, in Section 32, T30N, R23E, Colfax County. Groundwater most likely to be affected is at a depth of approximately 100 feet and had a pre-discharge total dissolved solids concentration of 1,700 milligrams per liter.

Discharge Permit 9	Facility Sunmart #675		Applicant Chris Smith Petroleum Wholesale LP PO Box 4456 Houston, TX 77210	NMED Permit Contact Avery Young Environmental Scientist Avery.young@state.nm.us Telephone: (505) 699-8564
	Closest City Vado	County Doña Ana		

Notice: DP-9, Sunmart #675: Petroleum Wholesale LP proposes to renew the Discharge Permit for post-closure monitoring purposes. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 1715 Vado Drive, approximately 1.5 miles northeast of Vado, in Section 21, T25S, R03E, Doña Ana County. Groundwater most likely to be affected is at a depth of approximately 97.5 feet and had a pre-discharge total dissolved solids concentration of 1,400 milligrams per liter.

<u>Discharge Permit</u> 423	<u>Facility</u> Biad Chile LTD Co.		<u>Applicant</u> Don R. Biad, Owner Biad Chili LTD Co. 2240 – A, Pepper Rd Las Cruces, NM 88007	<u>NMED Permit Contact</u> Steve Perez Geoscientist Steve.Perez@state.nm.us Telephone: (505) 490-3393
	<u>Closest City</u> Las Cruces	<u>County</u> Doña Ana		

Notice: DP-423, Biad Chili LTD Co.: Don R. Biad proposes to renew and modify the Discharge Permit for the discharge of up to 130,000 gallons per day of agricultural wastewater from a chile processing facility. Potential contaminants from this type of discharge include nitrogen compounds. The facility and discharge locations are located at 8927 N. Hwy 185, approximately 1 mile south of Leasburg, in Section 31, T21S, R01E and Section 06, Township 22S, Range 01E, Doña Ana County. Groundwater most likely to be affected is at a depth of approximately 9 feet and had a total dissolved solids concentration of 2,120 milligrams per liter.

<u>Discharge Permit</u> 833	<u>Facility</u> Big Sky/Desertland Dairy		<u>Applicant</u> John DeRuyter, Member PO Box 10 Mesquite, NM 88048	<u>NMED Permit Contact</u> Steve Perez Geoscientist Steve.Perez@state.nm.us Telephone: (505) 490-3393
	<u>Closest City</u> Vado	<u>County</u> Doña Ana		

Notice: DP-833: Big Sky/Desertland Dairy proposes to renew the Discharge Permit for the discharge of up to 70,000 gallons per day of wastewater from the production area of a dairy facility. Potential contaminants from this type of discharge include nitrogen compounds. The facility and discharge locations are located at 17700 South Stern Drive, Vado, in Sections 27, 28, and 33, T25S, R03E, Doña Ana County. Groundwater most likely to be affected is at a depth of approximately 11 feet and had a pre-discharge total dissolved solids concentration of 4,020 milligrams per liter.

<u>Discharge Permit</u> 1632	<u>Facility</u> Evergreen Mobile Home Park		<u>Applicant</u> Alfred Salazar, Owner Evergreen MHP PO Box 3021 San Diego, CA 92163	<u>NMED Permit Contact</u> Sandra Gabaldón Environmental Scientist Sandra.Gabaldon@state.nm.us Telephone: (505) 660-8164
	<u>Closest City</u> Las Cruces	<u>County</u> Doña Ana		

Notice: DP-1632, Evergreen Mobile Home Park proposes to renew the Discharge Permit for the discharge of up to 12,900 gallons per day of domestic wastewater to a septic tanks/leachfields disposal system. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 6345 N. Doña Ana Road, Las Cruces, approximately 7 miles north-northwest of Las Cruces, in Section 15, T22S, R1E, Doña Ana County. Groundwater most likely to be affected is at a depth of approximately 30 feet and had a pre-discharge total dissolved solids concentration of 1,400 milligrams per liter.

Discharge Permit 1810	Facility Young Guns, Inc.		Applicant Christopher Franzoy, Owner Young Guns, Inc. PO Box 1528 Mesilla Park, NM 88047	NMED Permit Contact Steve Perez Geoscientist Steve.Perez@state.nm.us Telephone: (505) 490-3393
	Closest City Hatch	County Doña Ana		

Notice: DP-1810, Young Guns, Inc: Christopher Franzoy proposes to renew and modify the Discharge Permit for the discharge of up to 68,000 gallons per day of agricultural wastewater from a chile processing facility. Potential contaminants from this type of discharge include nitrogen compounds. The facility and discharge locations are located at 1230 BB Romig Rd, approximately 2.5 miles northwest of Hatch, in Sections 1 and 12, T19S, R04W, Doña Ana County. Groundwater most likely to be affected is at a depth of approximately 10 feet and has a total dissolved solids concentration of 1,890 milligrams per liter.

Discharge Permit 1916	Facility Bonnie and Clyde's Getaway RV Park		Applicant Ron Day Bonnie and Clyde's Getaway RV Park, LLC 4154-2 Seven Rivers Highway Carlsbad, NM 88220	NMED Permit Contact Avery Young Environmental Scientist Avery.Young@state.nm.us Telephone: (505) 699-8564
	Closest City Carlsbad	County Eddy		

Notice: DP-1916, Bonnie and Clyde's Getaway RV Park: Ron Day proposes the Discharge Permit for the discharge of up to 7,000 gallons per day of domestic wastewater to a disposal system. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 4151-2 Seven Rivers Highway, approximately 7 miles north of Carlsbad, in Section 7, T21S, R26E, Eddy County. Groundwater most likely to be affected is at a depth of approximately 65 feet and had a pre-discharge total dissolved solids concentration of 3,040 milligrams per liter.

Discharge Permit 1924	Facility Bell Gas #1186 / TR's Market		Applicant Gary Harrell Vice President PO Box 490 Roswell, NM 88202	NMED Permit Contact Melanie Sandoval Geoscientist – Supervisor UIC and Industrial Team Leader Melanie.Sandoval2@state.nm.us Telephone: (505) 660-7892
	Closest City Alto	County Lincoln		

Notice: DP-1924, Bell Gas #1186 / TR's Market: Bell Gas, Inc. proposes to discharge up to 1,500 gallons per day of petroleum contaminated groundwater to a treatment and disposal system. Potential contaminants from this type of discharge include nitrogen compounds, organic and inorganic compounds and metals. The facility is located at 101 Sun Valley Road, Alto, in Section 34, T10S, R13E, Lincoln County. Groundwater most likely to be affected is at a depth of approximately 45-90 feet and had a pre-discharge total dissolved solids concentration of 1,772 milligrams per liter.

<u>Discharge Permit</u> 81	<u>Facility</u> Pueblo De Luna Mobile Home Park		<u>Applicant</u> Bridgett Johnson, Owner PO Box 1482 Mesilla Park, NM 88047	<u>NMED Permit Contact</u> Lynette Guevara Hydrologist – Supervisor Reuse Team Leader Lynette.Guevara@state.nm.us Telephone: (505) 629-8811
	<u>Closest City</u> Deming	<u>County</u> Luna		

Notice: DP-81, Pueblo De Luna Mobile Home Park: Bridgett Johnson proposes to renew and modify the Discharge Permit for the discharge of up to 9,000 gallons per day of domestic wastewater to a septic tank/leach field system. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 5590 Columbus Road SW, Deming, NM 88030, approximately 4.5 miles south of Deming, in Section 22, T24S, R09W, Luna County. Groundwater most likely to be affected is at a depth of approximately 150 feet and had a pre-discharge total dissolved solids concentration of 250 milligrams per liter.

<u>Discharge Permit</u> 877	<u>Facility</u> NM Chile Products		<u>Applicant</u> David Ramos President Corporate NM Chile Products PO Box 2266 Deming, NM 88031	<u>NMED Permit Contact</u> Steve Perez Geoscientist Steve.Perez@state.nm.us Telephone: (505) 490-3393
	<u>Closest City</u> Deming	<u>County</u> Luna		

Notice: DP-877: New Mexico Chile Products proposes to modify the Discharge Permit for the discharge of up to 150,000 gallons per day of wastewater from a food processing facility. Potential contaminants from this type of discharge include nitrogen compounds. The facility and discharge locations are located at 3225 Highway 418 SW, approximately 3 miles southwest of Deming, in Section 6, T24S, R09W, Luna County. Groundwater most likely to be affected is at a depth of approximately 148 feet and had a total dissolved solids concentration of 320 milligrams per liter.

<u>Discharge Permit</u> 965	<u>Facility</u> Fleming Liquid Waste Disposal Site		<u>Applicant</u> Danielle Fleming, Co-Owner Precision Septic and Pumping Service PO Box 1272 La Luz, NM 88337	<u>NMED Permit Contact</u> Ron Sholdt Geoscientist Ron.Sholdt@state.nm.us Telephone: (505) 660-9662
	<u>Closest City</u> Alamogordo	<u>County</u> Otero		

Notice: DP-965, Fleming Liquid Waste Disposal Site: Danielle Fleming proposes to renew and modify the Discharge Permit for the discharge of up to 3,200 gallons per day of septage and food related grease trap/interceptor industrial wastewater from a synthetically lined sand filter system to a land application area. Potential contaminants from this type of discharge include nitrogen and organic compounds. The facility is located at 4258 US Hwy 54 S, approximately 22.5 miles south of Alamogordo, in Section 16, T20S, R09E, Otero County. Groundwater most likely to be affected is at a depth of approximately 191 feet and had a pre-discharge total dissolved solids concentration of 5,200 milligrams per liter.

Discharge Permit 1304	Facility Navajo Lake State Park		Applicant Colleen Baker, Bureau Chief New Mexico State Parks 1220 S. St. Francis Drive Santa Fe, NM 87505	NMED Permit Contact Gerald Knutson Environmental Scientist Gerald.Knutson@state.nm.us Telephone: (505) 660-7189
	Closest City Aztec	County San Juan		

Notice: DP-1304, Navajo Lake State Park: New Mexico State Parks proposes to renew and modify the Discharge Permit for the discharge of up to 22,000 gallons per day of domestic wastewater to eight disposal systems. Potential contaminants from this type of discharge include nitrogen compounds. The disposal systems are located within Navajo Lake State Park approximately 17 miles southeast and 22.5 miles east of Aztec, in Sections 7, 8 and 18, T30N, R07W and Sections 13, 15, 16 and 20, T30N, R08W, San Juan and Rio Arriba Counties. Groundwater most likely to be affected is at a depth of approximately 5-250 feet and had a pre-discharge total dissolved solids concentration of 1,794-2,775 milligrams per liter.

Discharge Permit 1742	Facility Squeeky Kleen Truck and Car Wash		Applicant RG Hunt PO Box 65 Waterflow, NM 87421	NMED Permit Contact Melanie Sandoval Geoscientist – Supervisor UIC and Industrial Team Leader Melanie.Sandoval2@state.nm.us Telephone: (505) 660-7892
	Closest City Waterflow	County San Juan		

Notice: DP-1742, Squeeky Kleen Truck and Car Wash: Applicant Name proposes to renew the Discharge Permit for the discharge of up to 1,800 gallons per day of industrial wastewater to a treatment and disposal system. Potential contaminants from this type of discharge include nitrogen compounds organic compounds and metals. The facility is located at the SE corner of US Highway 64 and San Juan County Road, Waterflow, in Section 6, T29N, R15W, San Juan County. Groundwater most likely to be affected is at a depth of approximately 14 feet and had a pre-discharge total dissolved solids concentration of 1,124 milligrams per liter.

Discharge Permit 289	Facility City of Santa Fe Wastewater Reclamation Facility		Applicant Michael Dozer, Wastewater Management Division Director City of Santa Fe 73 Paseo Real Santa Fe, NM 87507	NMED Permit Contact Jason Herman Hydrologist – Supervisor Domestic Team Leader Jason.Herman@state.nm.us Telephone: (575) 649-3871
	Closest City Santa Fe	County Santa Fe		

Notice: DP-289, City of Santa Fe Wastewater Reclamation Facility: City of Santa Fe proposes to renew and modify the Discharge Permit for the discharge of up to 10 million gallons per day of domestic wastewater to a treatment system and reuse areas. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 73 Paseo Real, in Santa Fe near the intersection of Airport Road and NM Highway 99, in Section 10, T16N, R8E, Santa Fe County. Groundwater most likely to be affected is at a depth of approximately 119 feet and had a pre-discharge total dissolved solids concentration of 250 milligrams per liter.

Discharge Permit 1824	Facility SWAN Park		Applicant Melissa A. McDonald Acting Parks Division Director City of Santa Fe PO Box 909 Santa Fe, NM 87507-0909	NMED Permit Contact Ron Sholdt Geoscientist Ron.Sholdt@state.nm.us Telephone: (505) 660-9662
	Closest City Santa Fe	County Santa Fe		

Notice: DP-1824, SWAN Park: City of Santa Fe proposes to renew the Discharge Permit for the discharge of up to 210,000 gallons per day of reclaimed domestic wastewater to an irrigation re-use area. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 7350 Plaza Central, approximately 8 miles southwest of central Santa Fe, in Section 14, T16N, R8E, Santa Fe County. Groundwater most likely to be affected is at a depth of approximately 120 feet and had a pre-discharge total dissolved solids concentration of 350 milligrams per liter.

Discharge Permit 1918	Facility Santa Fe County Judicial Complex State Lead Site		Applicant Susan von Gonten, NMED-PSTB 2905 Rodeo Park Drive East Building 1 Santa Fe, NM 87505	NMED Permit Contact Jason Herman Hydrologist – Supervisor Domestic Team Leader Jason.Herman@state.nm.us Telephone: (575) 649-3871
	Closest City Santa Fe	County Santa Fe		

Notice: DP-1918, Santa Fe County Judicial Complex State Lead Site: Santa Fe County proposes to discharge up to 2,750 gallons per day of remediation solution to injection wells. Potential contaminants from this type of discharge include nitrogen compounds. The facility is located at 327 Sandoval Street, Santa Fe, in Section 24, T17N, R9E, Santa Fe County. Groundwater most likely to be affected is at a depth of approximately 20 feet and had a pre-discharge total dissolved solids concentration of 1,300 milligrams per liter.

Discharge Permit 510	Facility New Mexico Firefighters Training Academy		Applicant Brad Brunson, Deputy State Fire Marshal 600 Aspen Road Socorro, NM 87801	NMED Permit Contact Avery Young Environmental Scientist Avery.young@state.nm.us Telephone: (505) 699-8564
	Closest City Socorro	County Socorro		

Notice: DP-510, New Mexico Firefighters Training Academy proposes to renew the Discharge Permit for the discharge of up to 225,000 gallons per day of industrial wastewater to a disposal system. Potential contaminants from this type of discharge include nitrogen and organic compounds. The facility is located at 600 Aspen Road, Socorro, in Section 11, T03S, R01W, Socorro County. Groundwater most likely to be affected is at a depth of approximately 180 feet and had a pre-discharge total dissolved solids concentration of 367 milligrams per liter.

END OF PUBLIC NOTICE
